

We received this letter from Mary Lynne Whyte of Guelph, Ontario, Canada. Mary was one of the three “Grand Prize” winners who won one free year of Heartsong Presents.

I LOVE HEARTSONG

For two years I have been receiving a monthly shipment of Heartsong Presents books and to this day, I still love receiving them and can hardly wait to sit down and start reading one. As a Christian and lover of romance, I find the stories uplifting, both spiritually and romantically. They brighten any day.

Being a member of Heartsong is like belonging to a faith community. I love to sing and worship at church where my faith is constantly being built up due to my participation. Reading Heartsong Presents stories is similar in that regard. When I sit down to read, I feel connected to other believers. I get a strong sense of the author’s faith and, in wonder and awe, understand that I’m not the only Christian in this vast world. This definitely gives me a sense of peace.

With well developed plots and characters, these beautifully written stories display high morals and always show how God, prayer, and scripture are important for everyday living. They are first-class books, and I thoroughly enjoy reading them.

Heartsong has become part of my faith journey. From authors to readers, I now I have another ‘faith family’ out there, and with joy, I give thanks for them.
